

# Tekskil 22P HD-SDI Studio Prompters

**Tekskil's 22P HD-SDI / Analog prompter is the solution for Studios requiring switched dual input video capability to their prompter display.**

**This impressive 22 inch monitor is the largest camera mounted prompter available.**

The 22P-HD/SDI combines the latest in enhanced LCD displays with supercharged brightness and sophisticated optics (screen bonded glass micro-laminates) to deliver the best readability of any prompter. The energy-efficient LED backlights are bright, light and tough, the custom electronics ensure image quality with non-stop management of signal, power and temperature, and the all-metal housing is an engineered fusion of strength, rigidity, and light weight.

This prompting system can be complemented with a 22 inch HD Aux /Talent Assist display; this configuration is an excellent match for the latest generation of mid-weight robotic pan & tilt pedestals. The innovative modular design enables the 22P-HD/SDI to quickly be reconfigured for field or Outdoor Broadcasting or even as a Presidential Speech Prompter. Re-staging is simplified with Tekskil's proprietary quick release mounting system and a comprehensive choice of conversion kits.

- Switchable Composite/SDI/HD-SDI is standard  
3G:SMPTE 424M@2.97 and 2.967Gb/s 1080p@60/59.94/50Hz  
HD:SMPTE 292M/274M/296M@1.485 and 1.435Gb/s  
1080i@60/59.94/50Hz  
1080p/psf@30/29.97/25/24/23.98Hz  
720p@60/59.94/50/30/29.97/25/24/23.98Hz  
SD:SMPTE 259M@270Mb/s 625i50 525i59.94
- 22P-HD/SDI system will support a 22" HD auxiliary display dynamically suspended underneath the prompter and dampened to be free of vibration
- Available with a front-mounted single stage tally light or a top-mounted dual stage TallyCAM display
- Affordably priced

22P with Wide Angle Studio Hood, 22 inch Aux Panel and TallyCAM

## 22P Specifications
