

Tekskil 17P LCD Teleprompters

The Ultimate 17 inch Prompter

Tekskil's 17P 17 inch LED backlit Prompter Monitors are the ultimate in rugged performance, guaranteed to perform under the most challenging conditions. Custom electronics and optics combine for enhanced readability – the highest rated standard prompting systems available. They incorporate enhanced LCD panels (improved brightness and contrast), special optics, and surrounded with machined metal enclosures. The same performance that has been available in our most rugged slimline extruded enclosure is now available in an 'Ultralight Series' with folded metal case. The advantage of the lighter weight allows it to be used on the new midweight robotic pan & tilt drives,

Our innovative modular construction enables you to configure your prompter as a field or Outdoor Broadcasting system, indoor Studio Robotics or as the next Presidential Speech Prompter. Changing is as easy as disconnecting the panel from the quick release plate and retasking with either our field kit or Speech Prompter Conversion Kit. Four different hood configurations, three rail lengths and five different risers will tailor fit any camera and lens, no matter what!

- Tekskil 17" displays will replace most models of QTV, Listec, Autoscript or Telescript CRT and LCD's
- Tekskil prompters are serious all-metal professional grade products – Premium Series feature extruded metal enclosures for maximum strength and the Ultralight Series
- Come complete with the latest technology high resolution displays having 1200 cd/m² (nits) of brightness and an 1000:1 contrast ratio
- Can be configured with a front mounted LED Tally light or our TallyCAM Tally Display
- Premium Series can support an Aux/Talent Assist panel dynamically suspended underneath the prompter and dampened free of vibration
- Very affordably priced
