

Tekskil 17V LCD Teleprompters

The Industrial 17 inch Prompter

Tekskil's 17V Ultralight **Value Series** Prompter Monitors are the ultimate in inexpensive performance, guaranteed to perform under the most challenging conditions. Custom electronics and optics combine for enhanced readability. They incorporate enhanced LCD panels (improved brightness and contrast), special optics, and surrounded with a rugged yet lightweight folded metal enclosure. The advantage of using the lighter weight enclosure allows it to be used on smaller lightweight tripods as well as the midweight robotic pan & tilt heads,

Our innovative modular construction enables you to configure your prompter as a field or Outdoor Broadcasting system, indoor Studio Robotics or as the next Presidential Speech Prompter. Changing is as easy as disconnecting the panel from the quick release plate and retasking with either our field kit or Speech Prompter Conversion Kit. Four different hood configurations, three rail lengths and five different risers will tailor fit any camera and lens, no matter what!

- Tekskil 17" displays will replace most models of QTV, Listec, Autoscript or Telescript CRT and LCD's
- Tekskil prompters are serious all-metal professional grade products –Ultralight Series uses an innovative folded metal enclosure
- Come complete with the latest technology high resolution displays having 600 cd/m² (nits) of brightness and a 600:1 contrast ratio
- Can be configured with a front mounted LED Tally light or our TallyCAM Tally Display
- Premium Series can support an Aux/Talent Assist panel dynamically suspended underneath the prompter and dampened free of vibration
- Very affordably priced
