

Tekskil 15" LCD Large Robotic Prompters

Replace your aging Prompter with a Tekskil High Performance LCD

Tekskil's 15 inch LCD Prompter Monitors are the ultimate in rugged performance, guaranteed to perform under the most challenging conditions. Custom electronics and optics combine for enhanced readability – the highest rated standard prompting systems available. From the entry level **Value Series** which offers Tekskil's legendary quality display at an economical price, to the **Pro Series** with its rigid extruded metal enclosure and mid-bright output, to the new **Premium Series** with its LED backlit panels for the ultimate in performance and brightness. They incorporate enhanced LCD panels (improved brightness and contrast), special optics, and surrounded with machined metal enclosures.

Our innovative construction enables you to configure your prompter with any pan & tilt on the market and be assured of the simplicity of balancing and the stability of the image – even during sudden stops. Four different hood configurations, three rail lengths and four different risers will tailor fit any camera and lens, no matter what!

- Tekskil 15" displays will interface with most models of Cambotics, Hitachi Eagle, Panasonic or Telemetrics
- Tekskil prompters are serious all-metal professional grade products – Pro and Premium Series feature extruded metal enclosures for maximum strength
- Premium Series come complete with the latest LED technology high resolution displays having up to 1200 cd/m² (nits) of brightness and a 1000:1 contrast ratio
- Can be configured with a front mounted LED Tally light or our TallyCAM Tally Display
- Pro and Premium Series can support an Aux/Talent Assist panel dynamically suspended underneath the prompter and dampened free of vibration
- Very affordably priced

Tekskil 15P with Aux/Talent Assist Monitor on Cambotics Pan & Tilt
