More and more stations are adopting automation for improved production and reduced costs. A new breed of integrated pan/tilt/zoom cameras has emerged - PTZs. Utilizing miniature pan tilt assemblies with compact high performance cameras, PTZ systems provide broadcast quality video at a very reasonable cost. However, they come with a headache – how do you integrate a teleprompter for the talent? Tekskil fills this need with the development of the Integrated Network Teleprompter System.

Set up one of our systems in your studio and see the difference for yourself
