

High Performance 15 inch Field Prompters

Tired of lugging heavy prompters and counterweights around in the field?

Hunting for missing pieces or dealing with transport damage?

Time consuming set up and tear-down?

And then having the talent complain about the prompter's readability?

Field crews produce a vital and growing share of broadcast production, and the need to shoot quality and time-effective footage outside the studio has become a major challenge. Retakes are the big headache for most shoots and mangled script delivery is almost always the culprit. The answer seems obvious - drag along the studio prompter. Unfortunately, its not that easy... experienced crews know that studio prompters don't work well in the field – they're not bright enough to read, difficult to set up and too fragile to carry in the truck.

Tekskil has solved these problems with our most portable and rugged outdoor prompters

Tekskil's No Counterweight Field Prompters

15P-F with H15 Beamsplitter

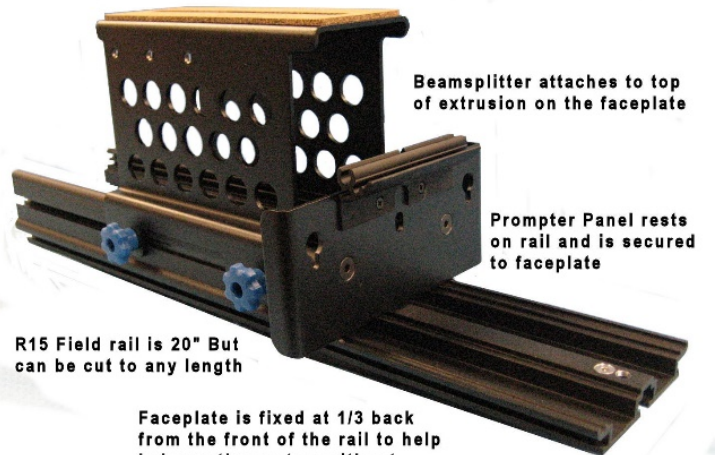

These prompters are the ultimate in readability – distances of 20 feet or more are no problem. And those prompter displays are integrated with our signature extruded aluminum frame rail and docking hardware for a truly portable product.

The camera hood is equipped with a framed 40/60 beamsplitter that provides wide angle viewing without annoying glare. 'No Tool' construction provides both ruggedness and quick setup & teardown. This system is the ideal companion for the new breed of ultra compact Mini-DV Camcorders and lightweight field tripods.

- **Rugged Construction:** Pro Series field prompters are serious all-metal systems – available in 10" and 15"
- **Great Performance:** Supercharged LCDs having amazing brightness and contrast - fully readable in direct sunlight
- **Fast Assembly:** No counterweights, aluminum frames and tool free set-up ensure speedy setup and teardown
- **Easy Transport:** A single wheeled case stores all the pieces required for fuss-free toting or shipment
- **Accessories:** Add our highbright talent monitor, battery mount or tally light – if you need it, we'll make it
- **Cost Effective:** Eliminate expensive re-shoots without breaking your budget – Tekskil quality and price is hard to beat

15P-F LED	
Panel Type:	High Bright Active Matrix TFT LCD
Diagonal Screen Size (HxV):	15.0 inches (11.7" x 9")
Pixel Format (RGB):	1280 x 1024
Backlight Brightness:	1500 cd/m ²
Contrast Ratio:	1000:1
Color Temperature:	6500°K, 8500°K
Viewing Angle (H/V):	170° / 170°
Total Weight:	12 lbs.
Lamp Life:	60,000-Hour
Power Consumption	28 W
Warranty:	Five Years

Ultra High Camera Riser puts the lens in the middle of the Beamsplitter

Beamsplitter attaches to top of extrusion on the faceplate

Prompter Panel rests on rail and is secured to faceplate

R15 Field rail is 20" But can be cut to any length

Faceplate is fixed at 1/3 back from the front of the rail to help balance the system without excessive Counterweights
